

NON PROVISIONAL PATENT APPLICATION

To the Commissioner of Patent and Trademarks:

Your petitioners Charles Taylor citizen of the United States and resident of San Jose California, whose post-office address is 1084 Gruwell Pl. San Jose, California, 95129 prays that letters patent may be granted to him for a **GREASE and OIL SEPARATOR LADLE**, as set fort in the following specification:

TITLE OF INVENTION

Grease and Oil Separator Ladle.

ABSTRACT

The above-mentioned ladle is a special deep-bowled long-handled grease and oil separator kitchen tool. The purpose of this kind of ladle is to remove of the excess fat or cooking oil from the top of soup, or other kind of liquid. I should handle mostly warm liquid grease or oil swimming on the top of the soup or vegetable.

FIELD OF INVENTION

It has been designed for household and restaurant use, but it is not limited for them only. The possibility for some industrial application can be real too. But this invention relates mostly to cooking, producing soups and other greasy or oily foods where the extra fat is undesirable and not healthy.
